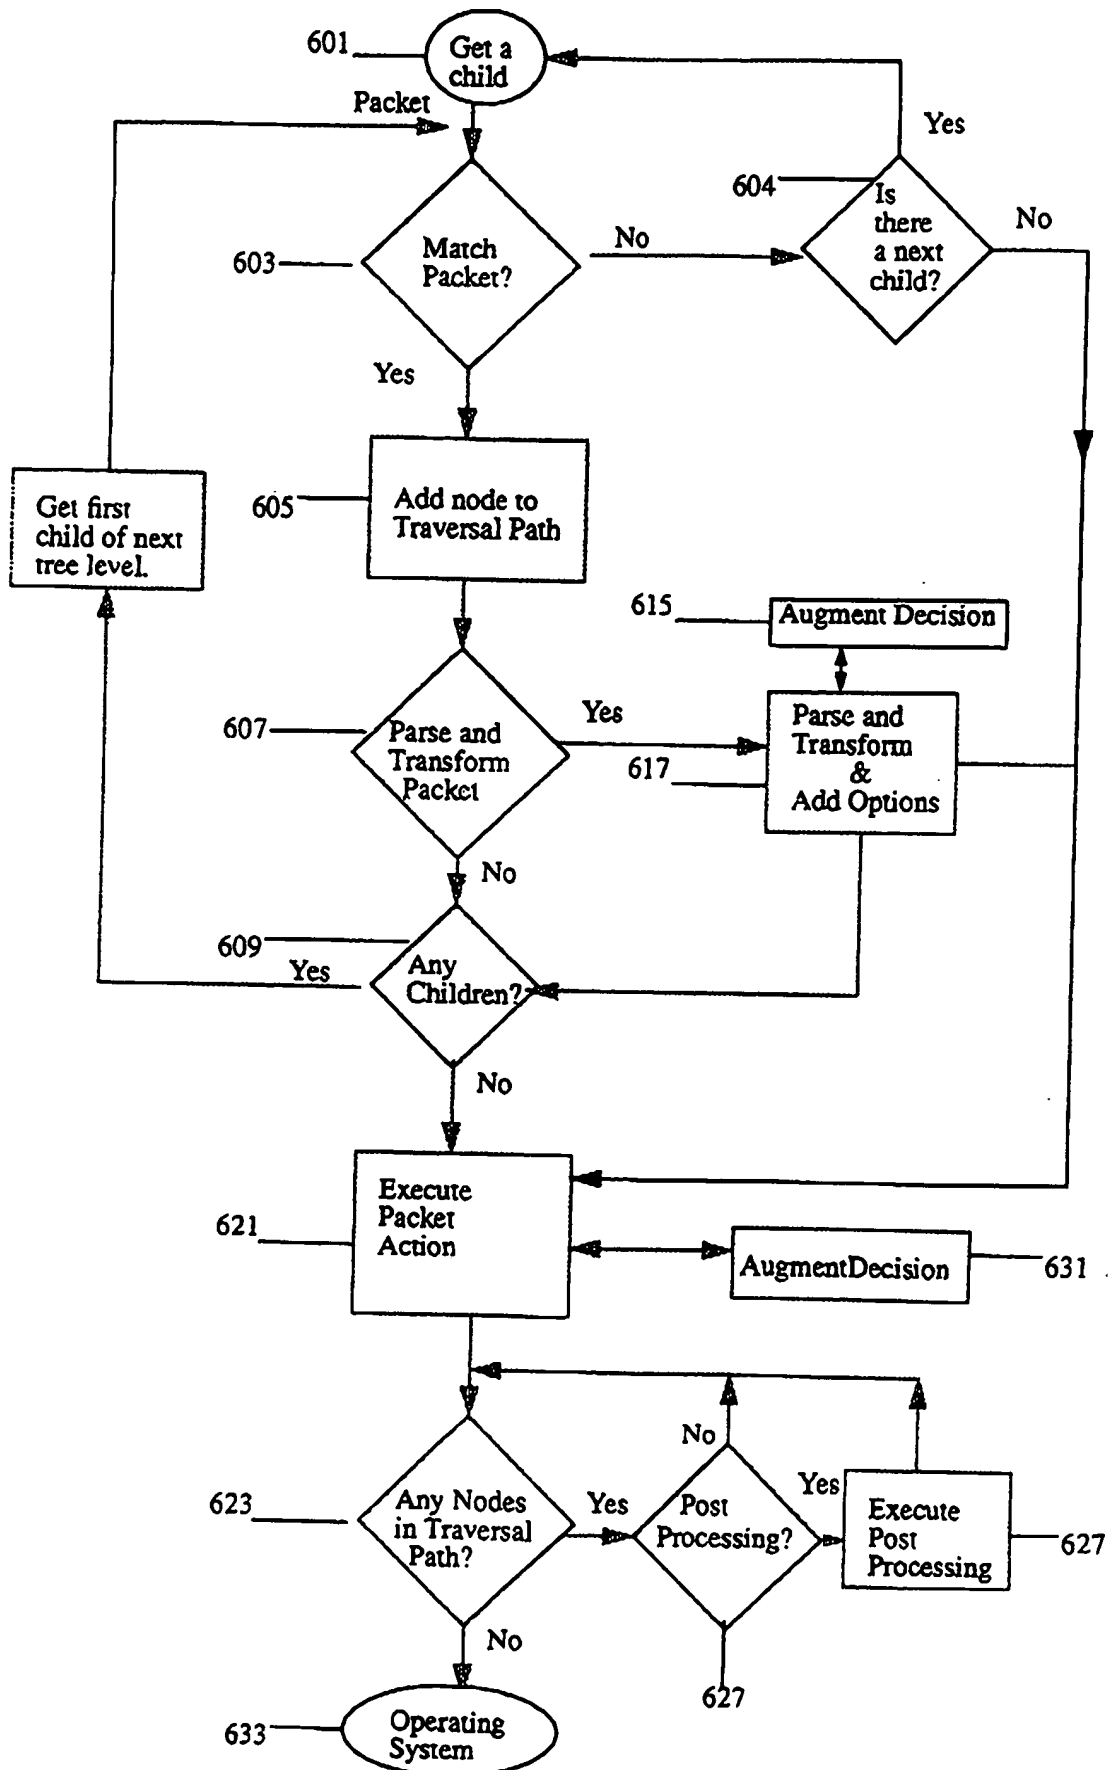

FIGURE 6.

700

No\_Match - Didn't match the packet; continue normal tree traversal  
 Match\_OK - Matched the packet; continue normal tree traversal  
 Match\_This - Matched this node; execute the packet action code immediately  
 Match\_Discard - Matched the packet; immediately discard the packet  
 Match\_Forward - Matched the packet; immediately forward the packet

FIGURE 7.

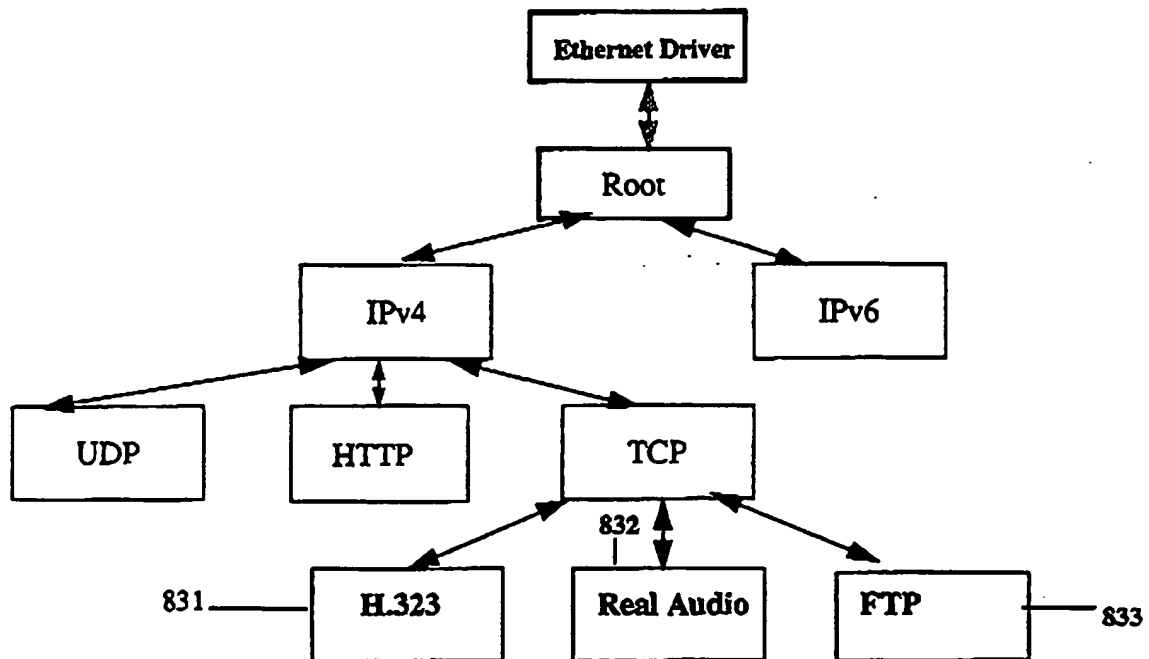

FIGURE 8.

900

PP\_NotOK - Stop tree traversal  
PP\_OK - Continue tree traversal  
PP\_Discard - Immediately stop traversing the tree; discard the packet  
PP\_Forward - Immediately stop traversing the tree; forward the packet

FIGURE 9.

1000

OK\_Discard - Reverse traverse the tree for postprocess;  
recommend to discard the packet.  
OK\_Forward - Reverse traverse the tree for postprocessing;  
recommend to forward the packet.  
Stop\_Discard - Discard the packet immediately without reverse traversing the tree.  
Stop\_Forward - Forward the packet immediately without reverse traversing the tree.  
OK\_Local - Accept the packet locally.  
OK\_Redirect - Redirect the packet to a foreign host.
